Upon being released from incarceration on January 31,2007 one year ago from this date, of a 15 to 30 year sentence and forced to do 20 years within the maximum security prisons MCI Ceda Junction Walpole Old Colony Correctional Center, Norfolk Correctional.

Each day at these prisons after being released on this date above, is and has been overwhelming for me this plaintiff to adjust back out in society.

Between caring for my elderly widowed mother, my own medical illness recieved from the incarceration visiting doctors offices and being unable to have a steady five (5) day a week job of employment, and trying to obtain everyday necessities to survive, and being unable to smell with the great evidence of my sperm count do to the assaults agains throughout the wrongfull incarcerations.

Wherefore this pro-se, plaintiff, request that this Hornorable Court reinstates this Civil Action above.
